

## PROFILE

Hello!

My name is Dylan Garcia and I am currently a freshman in the Craig and Galen Brown Engineering Honors Program at Texas A&M University. I am personally one of the fastest learners that you will ever meet, and have been known to be incredibly knowledgeable in technological applications since a very young age. My passion for computers started with my father when I was much younger, and I assure you that I am completely qualified for any task. Feel free to contact me at the links below or visit me at my website.
