EXPERIENCE

Fry's Electronics – *Electronics Components Salesman*

February 2019 - August 2019

Advise customers on purchasing decisions regarding laptops, desktops, consumer electronics, networking equipment, processors, graphics cards, R.A.M, resistors/fuses, etc.

EDUCATION

Texas A&M, College Station — *Computer Science*

August 2019 - May 2023

Currently studying to receive my Bachelor's in Computer Science.

Westwood High School, Austin

August 2015 - May 2019

Westwood Band Section Leader

SAT 1500 (700 R/W && 800 Math)

UIL Computer Science Club && Special Effects Studio Club

Sixteen hours of community service and sold over $10,000 in mulch to raise money for the band

HIGHLIGHTED PROJECTS

Cat/Dog/Neither — *Basic Image Classification*

Data collected and generated a basic neural net which would determine whether a given image was of a cat/dog/neither as a fun experiment with Tensorflow.

Macro Assist — *Basic Macro Automation*

Wrote an app using Java/JavaFX that allowed for programmable macros that could be toggled and hotkey activated.

El Localizador — *(The Locator) Rudimentary Maps Tool*

Wrote an app in Java/Java Swing that allowed for rating, searching (by various categories), sorting, and commenting based on a given lat/long coordinate, radius, and list of locations.

SKILLS

Proficient in Python partially from high school and partially in

Proficient in Java from years in high school

Mostly work in Debian based Linux environments

Experience hosting servers in CentOS

Familiar with Pip, Anaconda, Vim, etc.

Very knowledgeable with computer parts and networking equipment

Overclocked my PC to benchmark in the top 1%
